REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The instant application discloses a method and apparatus for determining log likelihood (LLRs) for code symbols. An exhaustive and thorough search of prior art records has failed to disclose an apparatus comprising defining the likelihood values of the designated code symbol as a log likelihood ratio Λ_k in accordance with the equation as disclosed in claim 2 or iterating a gain vector equation for a predetermined number of iterations, the gain vector equation as disclosed in claim 17. The prior art also fails to teach a method or apparatus for determining likelihood values comprising using or means for using the multipath gain vector to determine likelihood values of a designated code symbol, wherein the input data bits are carried by the designated code symbol along with the remaining limitations of claims 18 and 20 and 21, respectively. Prior art also fails to teach a method for determining or an apparatus for using likelihood ratios comprising iterating a gain vector equation for a predetermined number of iterations, the gain vector equation as disclosed in claim 19.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
